

Global Official Development Assistance (ODA)

In 2023, the United States contributed approximately \$68.2 billion in foreign aid, accounting for about 30.5% of the OECD Development Assistance Committee's total of \$223.3 billion. This represented 0.24% of the U.S. gross national income (GNI).

Understanding the Shifts in USAID Support

of USAID programs have been discontinued—leaving just 898 active out of 6,200+ programs.

The massive funding rollback threatens global development efforts, disrupting critical programs in health, education, and economic stability worldwide.

Funding Cuts by Issuing Office

Over 55% of recipient countries lost all funding, while the rest experienced reductions of 50% or more. These funding cuts further strained local governments and communities that depend on U.S. assistance for essential services.

Impact on Implementing Partners

USAID's restructuring cut funding for 2,353 organizations. These cuts mark a major shift in how U.S. foreign aid is delivered.

Largest USAID Funding Losses by Organization

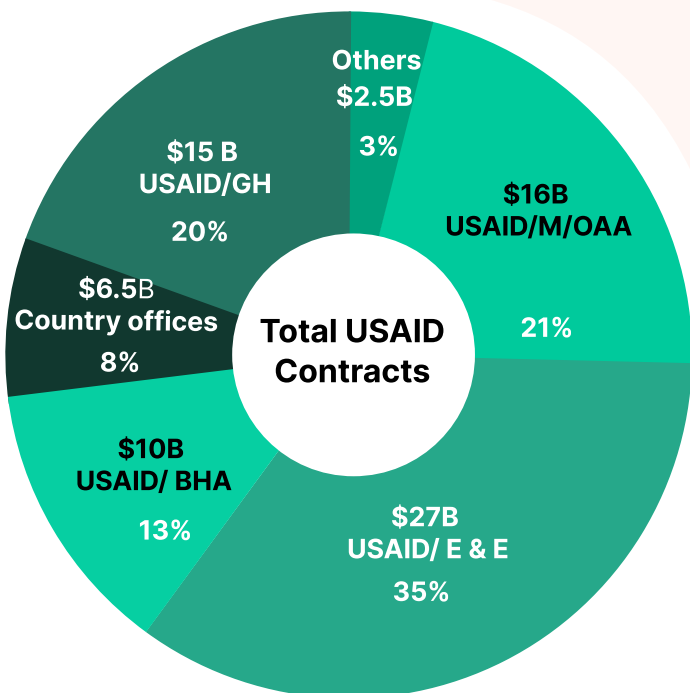

90% of implementing partners had **100%** of their projects terminated

Major Implementers Most Severely Affected - 100% USAID Funding Cuts

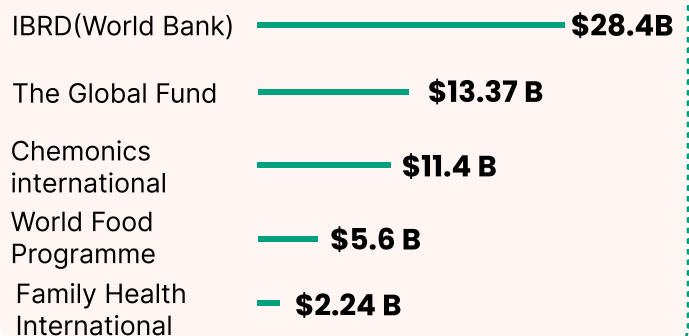

Distribution of Active Rewards

The remaining **898** awards hold just \$8.3 billion in unobligated funding—a fraction of USAID's typical annual spending.

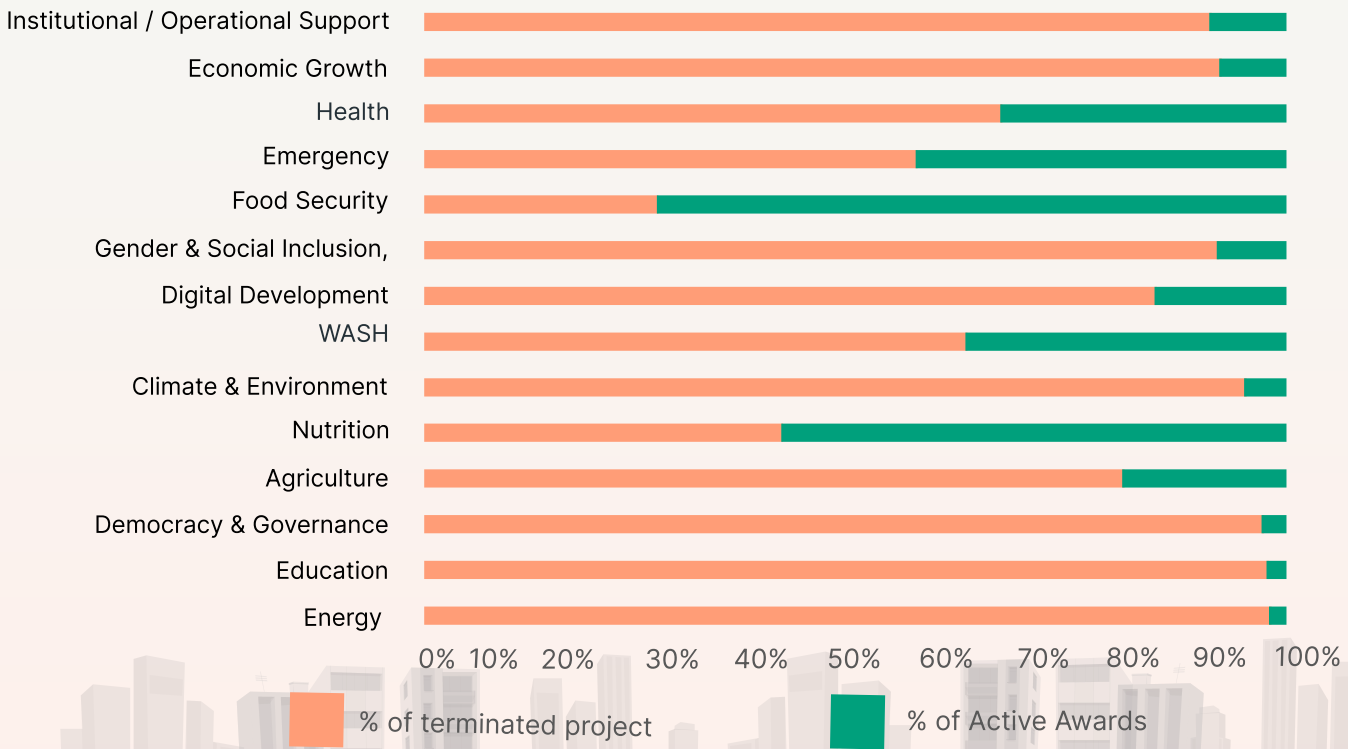

Major Vendors for Active Awards

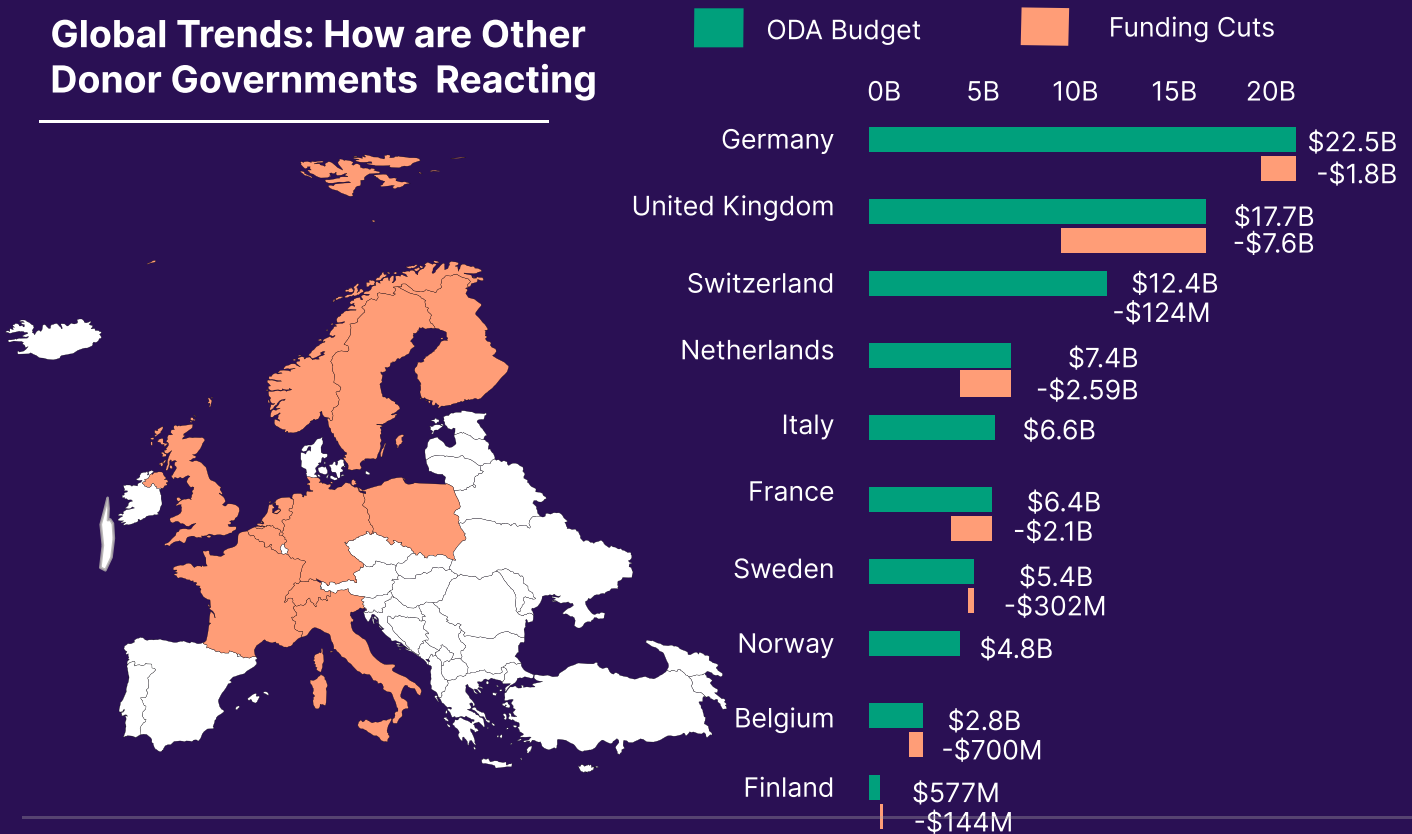

Remaining Funding Distribution

The new shift may reflect a focus on institutions with global reach and performance track records, but also reduces diversity in delivery models and partner perspectives
